

Water Dispenser / Meter

INSITU
WATER DISPENSER

WD104

Perfect water every time.

Precision quality control for the foundation of your product. You no longer have to rely on busy staff to ensure the water amount and temperature are correct before mixing. Save time, improve quality, and reduce labor training.

Our modular approach allows you to start where you need help most and add additional automation as needed.

- Standard 3/8" NPT inlets for simple install
- Seamless integration with your dough or batter mixer
- Simple one-touch water dispensing
- Up to 5 programmable recipes
- Hit any water temperature from 38F-110F (3.5C to 43C)

Proudly Designed, Manufactured, and Assembled in the USA.
